

**Eco LAM 380**  
The Little Professional

**MADE IN  
INDIA**

**Desktop  
Thermal Laminator**

**KEY SPECIFICATIONS**

Laminating Width	365 mm
Laminating thickness	100 - 350 GSM
Lamination Temperature	70°C to 150°C
Laminating Speed	600 - 3000 mm/min
Motor Power	30W
Power Supply	220V/50Hz
Power	630 W
Display	Membrane touch panel
Dimension	620 x 512 x 300 mm
Weight	37 Kg

**FEATURES**

- Equipped with a top steel roller and high-quality silicon rollers, ensuring smooth operation and uniform lamination results.
- The system of fers separate temperature control for the top and bottom rollers, allowing accurate adjustment for different substrates.
- An advanced NTC thermistor sensor provides high response and accuracy in detecting roller temperature, guaranteeing stability during operation.
- The membrane keypad design enhances ease of control while maintaining durability
- Can run both 3" and 1" dia film rolls

**Office**

 Redlands House, Karikkath Lane,  
M G Road, Thrissur, Kerala, India - 680 001

**Factory**

 Madukkarai Road, Malumichampatti,  
Coimbatore, Tamilnadu, India - 641050
